

Designing the Future of Our Healthcare Workforce

**We are a collaborative of healthcare providers, practitioners, and educators banding together with state government and business leaders to address this critical shortage.**

The health and wellness of Granite Staters rely on the contributions of the full spectrum of roles that make up our healthcare workforce.

Our mission is to promote innovative partnerships and cross-sector collaboration to **grow**, **retain**, and **sustain** a robust healthcare workforce.

## OUR VISION

**The New Hampshire healthcare workforce draws from a diverse pool of dedicated, talented professionals.** We attract workers with competitive, equitable wages commensurate with experience, training,

education and an environment that supports diversity, quality care and continuous professional growth. As a result, community outcomes are improved and patients, clients, and the workforce are engaged and healthy.

**We honor every member of this critical workforce — providers, technicians, administrators, operations and facility staff — and are dedicated to fulfilling the HealthForce NH mission on their behalf.**

## We envision a New Hampshire where:

**Granite Staters are cared for by a healthcare workforce that shares their culture and values.** All potential workforce can access resources to pursue careers in healthcare.

**Our healthcare workforce is valued and recognized.** With high job satisfaction and quality of life, they are invested in contributing to quality care for all.

**A resilient healthcare system is supported by dynamic cross-sector policies.** These help to attract and retain workers and create healthy communities.

### SPEAKERS BUREAU

**Are you working to address NH's healthcare workforce shortage?** Trying to mobilize support and interest from your organization? Or your partners? Let us help!

At no cost to your organization, the HealthForce NH team can speak to your audience, share elements of the Giving Care report, provide the most up-to-date information and discuss how your work can become a part of HealthForce NH.

### BRIDGING INNOVATION

**New Hampshire partners have mobilized to launch more than 50 bold, innovative projects** to address the state's need for a dedicated, robust healthcare workforce.

HealthForce NH curates an inventory of these projects and other important data sources to help connect partners and amplify awareness.

### Tools and Information

**Giving Care: A Strategic Plan to Expand and Support New Hampshire's Healthcare Workforce.** This 2022 report is the first time specific steps were documented to create a new central coordinating entity for healthcare workforce development in New Hampshire; now known as HealthForce NH.

### How We Work

Guided by an Advisory Group, the HealthForce NH team at the Foundation for Healthy Communities is responsible for managing the implementation of HealthForce NH activities to bring its vision to fruition.

**Want to connect?** Contact Peter Ames at [pames@healthynh.org](mailto:pames@healthynh.org) or by phone at 603-415-4270.
